in **www.linkedin.com/in/aryan-pachori**   ⌗ **github.com/aryanpachori**

Education

Vellore Institute of Technology   Expected May 2025
Bachelor of Science in Computer Science (GPA: 7.4)   *Bhopal, MP*
- **Relevant Coursework:** Programming Languages (Java), Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Computer Architecture, Software Engineering

Experience

SUPERTEAM INDIA   Aug 2024 - Present
Member (Freelance)   *Remote*
- Joined Superteam India as a full-fledged Member, gaining access to community, bounty, and instagrant programs.
- Engaged in various projects and initiatives within the Solana ecosystem, leveraging the community's resources and support.

Projects

Upchain | *React, Express, Solana, Web3.js* — **GitHub**
- Developed a decentralized job portal leveraging the Solana blockchain.
- Created a web application that connects job seekers with employers.
- Integrated Solana blockchain functionality using Web3.js.

Label Chain | *React, Express, Solana, Web3.js* — **GitHub**
- Built a data labeling app that enables users to label data in real time.
- Provided decentralized payment functionality using the Solana blockchain.
- Integrated a secure user authentication system using public and private key pairs to enhance privacy and security.

Wallet Wave | *Next.js, Turborepo, PostgreSQL, Docker* — **GitHub**
- Developed a wallet application that enables users to securely perform transactions and on-ramp money.
- Created separate frontends for users and merchants, incorporating webhooks for bank transfers.
- Dockerized the application to improve deployment and scalability.

Technical Skills

Programming Languages: Java, TypeScript, JavaScript, HTML5, CSS3
Development: React, Next.js, Node.js, Express.js, Hono, Tailwind CSS, Solana web3.js
Databases: MySQL, PostgreSQL, MongoDB
DevOps: Git, GitHub, Docker
Cloud: AWS, Cloudflare Workers, GCP

Achievements

Solana Foundation & CoinDCX India Grants: Awarded a 1,000 USDC grant for the Upchain project.

Solana Foundation & Dialect Blinks Grants: Awarded a 1,000 USDC grant for the JOBLINK.

LeetCode: Solved over 250 problems, demonstrating strong problem-solving skills.

Buildspace: Selected for the Nights & Weekends s5 program.

VITB Gamers Arena: Achieved semi-finalist status in a Valorant tournament, highlighting competitive gaming skills.

Certifications

The Bits and Bytes of Computer Networking: Coursera

The Complete 2024 Web Development Bootcamp: Udemy

Java DSA Placement Course: Unacademy

100xdevs Cohort 2.0: 100XDevs
